

Hello! I am Evie and this is Dr Dino. She is my best friend and she knows lots of stuff about everything.

Dad says we are visiting a nature reserve on Saturday to see the animals.

‘Can we meet a **DINOSAUR**?’ I ask.

‘Dinosaurs are my favourite kind of animals. Especially the Diplodocus.’

Dad says no, because dinosaurs died out millions of years ago.

I am **NOT** happy. ‘Dr Dino,’ I say, ‘what are we going to do now?’

Luckily, Dr Dino has a *brilliant* idea.

We cut and colour,  
we paint and paste, and soon . . .

... we have made a **TIME MACHINE**.

Then we put everything we will need for our trip in our Dinosaur Adventurer bag:

Notebook and dinosaur pencil

I am wearing my dinosaur onesie so I will fit right in!

More dinosaur crackers in case a dinosaur wants to have a picnic

My tablet to take photos of any dinosaurs we meet

Dinosaur time chart so we don't get lost

Binoculars for far-away dinosaurs

A drawing of my favourite dinosaur (It's a Diplodocus like Dr Dino!)

Dinosaur crackers because travelling makes me hungry

**DINO CRACKERS**

**PIZZA**

**DIPLODOCUS**

**TRIASSIC PERIOD**
